

# Chromatic Cat

Rachel Pack

(♩ = 95)

My neigh-bor's cat wears ti - ny shoes he dan - ces when he's shy. He

twirls a - round the house wav - ing at peo - ple go - ing by.

**Purpose:** This exercise builds precision with half steps, helping improve pitch accuracy and vowel consistency across tight chromatic movement.

**Summary:** This exercise moves up and down a chromatic scale using lyrics instead of neutral syllables, helping tie pitch accuracy to real words. Each step should feel like it “clicks” into place—no sliding. As vowels and consonants shift, the goal is to keep the tongue and mouth shape consistent and resonant.
